BC Standing Offer Program

- Help geothermal power get connected to the grid!
- Provide input on how to improve the SOP (15 MW)
- Find out about the micro-SOP (1 MW)
- Feb 29 – Vancouver – free workshop
- March 2 – free webinar
- Please participate and help ensure sure that all gaps are addressed for BC's geothermal industry!
- CanGEA can provide you with our submission to BC Hydro for reference
- Sign up for workshop here: https://www.bchydro.com/bc/acquiring_power/current_offerings/standing_offer_program.html

BC Climate Leadership Plan

- Second phase of public consultation is open now
 - (until March 25)
- All residents of BC have the opportunity to let the CLP panel know that geothermal should be included in BC's energy mix
- CanGEA prepared a list of possible points to include in your submission
- Take action now and ensure a positive geothermal future
- <http://www.cangea.ca/news--featured-information/bc-climate-leadership-plan>

Federal budget – public input

- The federal government has opened the public pre-budget consultation
 - <http://www.budget.gc.ca/2016/prebudget-prebudgetaire/contact-contactez-en.html>
- Excellent opportunity for geothermal to be heard and to let Minister know that Direct Use is not including in the Tax Code incentives
 - Bring parity to geothermal energy!
- Let Minister Bill Morneau know that geothermal energy can create jobs, provide clean base-load electricity and enhance food security

Ambassador Program

- Become a Geothermal Ambassador and show your support for geothermal energy development!
- PowEARTHful stickers make a great gift for friends/colleagues and are an excellent conversation starter.
- Join a team of passionate people who advocate for geothermal online and in real life!
- <http://www.cangea.ca/categories.html>

Federal & Provincial Policy Action Letter

- <http://powearthful.org>
- All you need to do is provide your postal code and name
- A policy action request drafted by CanGEA is sent to your MLA, MP, Premier, Energy Minister and Prime Minister
- Let's bring parity to geothermal energy vis a vis fossil fuels and other renewables
