Effective Immediately

Village closing playgrounds in response to COVID-19

Please be advised that effective immediately all playgrounds on Village of Valemount property are closed to the public. The Village has made this decision in the interest of keeping our community safe and healthy and stopping the spread of COVID-19.

Mayor Torgerson states that “the Village of Valemount is working with our community partners to support the efforts of our Provincial Health Officer and all levels of government to help ‘flatten the curve’.” He requests that the public respects the decision to close the playgrounds.

Provincial Health Officer, Dr. Henry, stated late last week that kids mingling together on playgrounds is “not what we need right now” and encouraged the public to practice social distancing while spending time outdoors walking.

The Village of Valemount will be posting signage to inform the public of the closure, which is in effect until further notice.
