

Burn it Smart!

FREE Wood Stove Workshop

~ ~ Learn to Burn Responsibly ~ ~

Many Canadians burn wood to heat their homes and to enjoy a warm, cozy atmosphere. How can you burn wood safely in your home? How can you operate your stove efficiently? Tips that could save you time and money, as well as reduce impacts the smoke from your appliance has on your family's health, your neighbours and the environment.

Bring a piece of wood from your woodpile and we will test it for moisture content.

Topics include: Installation Safety - Burning Without Smoke – Firewood - Maintaining a System - Locating a Chimney - Planning a System - Wood Heat Options - Health & the Environment
