

# what is in the air?

## air quality & health forum

The quality of air that we breathe into our lungs can have a great impact on our overall health. Join us in this air quality and health public forum as experts in the field answer your questions about the health effects of air pollution and the risk of exposure in your communities.

### learning objectives

At the completion of the public forum, participants will be able to identify ways in which the public and other stakeholders can move forward in improving air quality and reducing health risks.

### highlights

This public forum will provide you with information on:

- Pollutants (wood smoke) and their sources
- Pollutant transport in the atmosphere
- Health effects
- Airshed management

### VALEMOUNT

Friday, October 27, 2017  
6:00pm - 8:00pm

Valemount Community Hall  
201 Gorse Street  
Valemount, BC
