### Affordable Housing Assessment 2021/22

The preliminary survey results from the assessment are in. The findings of this assessment are intended to inform decisions, establish a housing supply, and identify housing delivery options.

The full report will be ready by the end of March 2022. The preliminary survey results are found on the Village of Valemount website: [www.valemount.ca](http://www.valemount.ca)

**Pay your 2022 utility bill by March 10, 2022 and an 8% discount will be applied**

### CBT CIP/AAP Online Public Input Meeting

This year's CBT CIP/AAP public engagement will be held online from March 1 - 15, 2022.

The public input portion of the program allows the public to learn about the project applications and provide feedback on the projects they would like to see in the community.

Public feedback is used by the Adjudication Committee in making final funding recommendations.

The Online Public Engagement Survey can be found on the Village website at [www.valemount.ca](http://www.valemount.ca). Paper copies can be picked up at the Village Office, 735 Cranberry Lake Road.

If you do not have a computer or access to the internet at home, computers are available for use at the Valemount Public Library.

Please complete the survey by March 15, 2022.

### A Toilet is Not a Trashcan

It may be tempting to flush just about anything down the toilet, but doing so risks damage to septic tanks, the sewage treatment plant, and can cost you thousands in plumbing repairs.

What **NOT** to flush down the toilet:

- Feminine hygiene products
- Cooking grease/food
- Baby wipes, wet wipes, cleaning pads (including "flushable wipes")
- Diapers
- Q-tips, cotton balls

- Pills
- Cigarette butts
- Dental floss

**What can you flush down the toilet?** Toilet paper and human waste should be the only things you flush.
